Hrishikesh holds a first-class degree in Computer Engineering, which reflects his commitment to academic excellence. In addition to his engineering skills, he has proven to be an invaluable asset in the fields of Business Intelligence and Business Process Management, where he has consistently demonstrated a deep understanding and an ability to tackle complex problems. That extra effort to classify the tasks as "Complete" can only be demonstrated with passion to work.

Furthermore, Hrishikesh is a multifaceted individual with an extraordinary talent for art. His artistic creations are nothing short of spectacular, and his ability to breathe life into his drawings is truly remarkable. His passion for the arts, combined with his technical prowess, makes him an exceptional artist. This diverse background not only showcases his intellectual versatility but also his capacity to excel in different domains.

What truly sets Hrishikesh apart is his adaptability and ability to work well with others. He is a highly adjusting and collaborative team member, making him an absolute pleasure to work with. His strong work ethic and reliability make him a standout candidate for any endeavour he chooses to undertake.

I have no doubt that Hrishikesh Bunge will make a significant impact not only in the academic setting but also in any community he becomes a part of.
